Engine Driven Heavy Duty Water Transfer Pumps

HERCULES-27

The HERCULES-27 is a high pressure and high volume Water transfer Pump with a 3" outlet. It has a capability to deliver a massive 27L/sec or a high 70m head. This pump has a reputation as heavy duty water transfer pump. Available in bare shaft configuration or with a large range of petrol and diesel engine options. This pump can also be supplied in a roll frame and fitted with electric start. The casing is made as Standard from marine grade aluminum and with a solid FG 200 grade impeller. It is also available in a zinc free bronze construction. All suction and discharge ports are made from a sturdy zinc free bronze / SS304 (CF-8 Material). This pump is fully Indian made and is strong enough for any heavy duty use.

APPLICATION

-  **Water Transfer**
-  **Irrigation**
-  **Water Tankers**
-  **Fire Protection**
-  **Industrial**

Honda GX Series

Robin Subaru
